

BL-500

DARK EDITION

Expand your range.

More quality, more productivity,
more satisfied customers: your
range will grow with you with
the BL-500 Dark Edition.

Perfect coffee, cup after cup, thanks to the pre-infusion technology, the B16
extraction group and the professional showers guaranteeing that the cap
is always evenly soaked. Tea Care Tech makes preparing excellent teas and
infusions quick and easy.

PREINFUSION TECHNOLOGY. ENERGY SAVING. B16
EXTRACTION GROUP. TEA CARE TECH. READY FOR
PULLING. PRO-SHOWER SCREEN.

Design and technological systems to allow you to express your professionalism.

Details make the difference for a barista, which is why the BL-500 DE has been fitted with evolved systems that allow you to work on your creations behind the counter with the utmost comfort and precision. Milk texturing becomes an art form with Progressive Milk Control. With the touch display, all it takes is a touch to manage all the machine's functions, while the Coffee Crema LED lights illuminate the station and give you increased control over all the details of your preparation.
